Bangalore, India 

To Learn and make significant contributions to the company.
Enrich and enhance my technical knowledge and Develop
skills set while doing hands on technical projects.

EDUCATION

BE in Mechanical Engineering

R L Jalappa Institute of Technology,
VTU University, Bangalore.

03/2023 - Present,

Courses

- Mechanical Engineering (aggregate of CGPA 7.23)

12th

Narayana Junior College, Anantapur

06/2017 - 03/2019,

Courses

- MPC

7.98

10th

Christos English Medium High School,
Anantapur

04/2017,

9.3

PROJECTS

FABRICATION OF SMART DUST-BIN

This smart dustbin management system is built on the micro controller-based system having ultrasonic sensors on the dustbin. If dustbin is not maintained than these can cause an unhealthy environment and can cause pollute that affect our health. In this proposed technology we have designed a smart dustbin using ARDUINO UNO, along with ultrasonic sensor, servo motor and battery jumper wire.

DEVELOPMENT OF DUAL POWER GENERATION SYSTEM USING WIND-SOLAR ENERGY.

This project delivers excellent results. And it allows you to use both solar panel and wind turbine to charge your battery bank, presuming both are receiving enough sun or wind to generate electricity.

PORTFOLIO

I design and code beautifully using simple things and I have created my own portfolio using tools like:
HTML, CSS, Bootstrap, JavaScript.

SKILLS

HTML

CSS

BOOTSTRAP

JAVASCRIPT

SQL

CERTIFICATIONS

- Core Java & Soft skills Development -Anudip Institute.
- Internship Certification on "PP/HDPE WOVEN SACKS"
- Involved in the training of VTU prescribed Activity Themes.

NON-TECHNICAL SKILLS

- MS word, Excel
- Active Learning
- Time management
- Team work
- Quick learner

STRENGTHS

- Confidence, Passionate.
- Capable of adapting to any sort of environment.
- Enjoy working as a team.
- Disciplined and Responsible & Team management skills.

LANGUAGES

- Speak:** English, Telugu, Kannada.
- Write:** English, Hindi, Telugu.

INTERESTS

Photography
